## PROFILE

I am a Graduate of Bachelor of Science in Computer Engineering graduate with a strong foundation in hardware and software systems, programming, and computer networks. Knowledgeable in system troubleshooting, embedded systems, and basic software development. A fast learner with strong analytical and problem-solving skills, seeking an opportunity to apply technical knowledge in a dynamic work environment. Committed to continuous learning and contributing effectively to team goals while maintaining high professional standards.

## WORK EXPERIENCE

### Provincial Capitol Iloilo Philippines

2024

#### On The Job Training

- Assisted in the use of ArcGIS for mapping, spatial data analysis, and geographic data management.
- Performed geotagging of satellite map data to accurately identify and plot locations.
- Updated and maintained geographic information system (GIS) databases.
- Verified map coordinates and ensured accuracy of spatial information.

2019- 2020

### Barotac Nuevo Tarpulin Services

#### Tarpulin Layout & Printing Assistant

- Designed and edited tarpulin layouts using graphic design software (e.g., CorelDRAW / Photoshop).
- Assisted in preparing print-ready files, ensuring correct dimensions, resolution, and color settings.
- Operated and monitored large-format printing machines for tarpulin production.
- Performed quality checking to ensure accurate layout alignment and print clarity.

2020 - 2021

### Freelance

#### Independent Crypto & Forex Trader

- Analyzed market trends using technical analysis tools and charting platforms.
- Executed buy and sell trades in cryptocurrency and foreign exchange markets.
- Applied risk management strategies, including stop-loss and position sizing.
- Monitored economic news and global financial events affecting market movements.
